

ECPE Objectives and Activities

The objective of ECPE is the promotion of research, innovation, education, publicity and technology transfer in the area of power electronics in Europe.

Activities and Responsibilities of ECPE e.V.:

- Establish the industrial and research network in Europe
- Provide a platform for networking activities e.g. ECPE web site, working groups
- Intensify research, promote the exchange of experience between industry & science
- Promotion of R&D projects and publications
- Organize seminars and workshops (education & training)
- Establish and operate an online course in power electronics
- Strengthen existing power electronics conferences e.g. CIPS, PCIM
- Represent the interests of power electronics industry to the public and to politics
- Motivation of undergraduates to study university courses related to power electronics

Activities and Responsibilities of ECPE GmbH:

- Providing (acquiring) private funding for selected R&D projects
- Definition and monitoring of research projects
- Creation and realisation of know-how and intellectual property (IP) rights
