

Solar electricity is our passion and the energy supply of the future. This is what we believe in. At SMA we are dedicated to reaching this goal. "To participate in a good thing, as part of a motivated team, in an industry with great potential - that is my idea of an attractive work place", says Marco Weide, Campaign Manager. Solar is Future - welcome to our present!

SMA is the world's largest manufacturer of solar inverters, a central component of every solar power system. Would you like to learn more about your opportunities at SMA? You will find detailed information on these and many more job vacancies at jobs.SMA.de. Please apply under the reference number quoted.
