

TridonicAtco is a leading manufacturer of lighting components. Our innovative solutions are used successfully in the lighting industry throughout the world.

TRIDONIC.ATCO

For our organisation in England, located in Spennymoor County Durham, we are searching for:

# Design Engineers

## Key tasks and responsibilities:

- >> Design hardware topologies for emergency control gear including drivers for solid state lighting (LED)
- >> Analyse new circuit concepts using latest software tools such as MatLAB, Simulink & MathCAD
- >> Involvement in new technology topics with development of technology roadmap for emergency lighting
- >> Accompany a product through its complete life cycle; concept, simulation, realisation through to mass production
- >> Provide support/assistance to technical enquiries

## Qualifications and requirements:

- >> Degree in Electronic Engineering, bias towards analogue power system design with several years of experience in this field
- >> Sophisticated knowledge in power electronics and strong interest in future technologies for electronic control gear
- >> Strong analytical ability plus self-responsible, pro-active style of working
- >> Good interpersonal skills with ability to work either independent or as part of a team, interest for occasional travel
- >> Adapt in the use of circuit simulation tools

## Welcome!

- >> If you are interested in working in an international company with a wide range of fascinating challenges, please send your application to:

TridonicAtco Ltd.  
Mr. Steve Parkes  
House of Light, Butchers Race  
Green Lane Industrial Estate  
Spennymoor, Co. Durham, DL16 6JE
