

University of Cassino

Dipartimento di Automazione, Elettromagnetismo, Ingegneria dell'Informazione e Matematica Industriale

The many skills and interests within the department DAEIMI have given rise to active cooperation in the Scientific Community both at national and international level. The department is also active at a local level actively promoting scientific and technological transfers. Our fields of research are at the fore-front technological challenges facing the world of industry and the service sector.

Key Research Fields & Competence Areas:

- Automation
- Electromagnetism
- Computer science
- Industrial mathematic

Institute Highlights:

-
-
-
-
-
-

Contact Information:

Prof. Giovanni Busatto

University of Cassino - DAEIMI
Via Di Biasio, 43
03043 Cassino
Italy
