By taxi from the airport:

It takes about 20 – 30 minutes from the airport to the city centre. For details and fares please see www.amb.cat.

By car:

You can reach Barcelona by car via three toll motorways. A ring road encircles the city, connecting to these motorways. Typically, you can navigate the ring road efficiently, except in the city center. However, during rush hour, there is frequent congestion at key junctions, such as Plaça de les Glòries.

Driving in Barcelona is not recommended, due to high traffic as well as scarce and expensive parking. The public transport in Barcelona is well connected and reliable and therefore a much more efficient option.

Please also note that Barcelona is a Low Emission Zone and entry is only permitted with
